Introduction .............................................................................................. vii

Chapter 1: How’s Your Attitude? ................................................................. 1
   Assess your willingness to deliver exceptional service and avoid the traps that can cause acrimony in your dealings with customers.

Chapter 2: Hitting the “I Don’t Know” Wall ........................................... 5
   Rather than just admit your ignorance, dig for more information and confirm what the customer really wants to know.

Chapter 3: Telling the Customer “That’s Wrong” .................................. 7
   Avoid confrontation by adopting an empathetic approach so that you see the situation from the customer’s perspective.

Chapter 4: Rushing to Solve a Problem With “That Can Be Fixed” ....... 9
   Make sure customers are ready to listen before you jump in to solve their problems—and let them vent their frustration first.

Chapter 5: Responding to Complaints With “Did You Try?” Inquiries .... 11
   Interrogating complainers about what they may or may not have tried so far will not endear you to them. It’s smarter to listen, probe and advise.
Chapter 6: Firing Up the “Please Calm Down” Defense .... 15
Rather than urge someone to calm down, stay silent and use the customer’s outburst as an opportunity to plan your reasoned response.

Chapter 7: Overdosing on “I Appreciate That You’re Upset”
Observations .............................................................. 19
When you characterize a customer’s emotions, you divert attention from the issue at hand. Confirm your understanding—and move on.

Chapter 8: Clinging to “You’ll Hear Back From Us Soon”
Unaccountability ........................................................ 21
Take ownership of a customer’s needs so that you provide a specific time frame within which to deliver on your promise to follow through.

Chapter 9: Expressing “That’s Never Happened Before”
Surprise ................................................................. 23
Customers will feel awkward or unlucky if you say they’re the first to come to you with their problem, so keep that news to yourself.

Chapter 10: Stopping With “I’m Not Allowed to Do That” ..................................................... 25
Provide alternatives to fulfill customer requests if your organization’s policy prevents you from satisfying their reasonable demands.

Chapter 11: Offering to “Let Me Try to Look Into That” ...................................................... 27
Instead of trying to do something, say that you’ll do it. This reassures customers that you’re not going to wiggle out of your commitment to help.
Chapter 12: Issuing a “Sorry for the Inconvenience” Apology Without a Peace Offering .......................................... 29
Apologize to customers by offering something of concrete value, beyond just saying “sorry.” Throwing in little freebies adds heft to your apology.

Chapter 13: Asking “May I Have Your Phone Number?” at the Point of Sale ..................................................... 31
Find a less intrusive way to invite customers to share their personal data—or else you will leave them with a bad feeling when they buy from you.

Chapter 14: Framing Questions Negatively, Such as “Are You Still Confused?” ........................................... 33
Watch your word choice when you ask questions, because customers may chafe if they think you’re lacing your inquiries with negative judgments.

Chapter 15: Whining “I’m Having a Bad Day” (As If the Customer Cares!) ....................................................... 35
Keep your personal problems to yourself rather than flood unsuspecting customers with your troubles.
